## Technical Skills

---

**Languages & Databases:** C, C++, Python, Java, JavaScript, HTML, CSS, MySQL, PostgreSQL, MongoDB

**Frameworks & Libraries:** React.js, Node.js, Express.js, Java Spring Boot, Tailwind CSS

**Tools & Platforms:** Git, GitHub, Postman, VSCode, Google Colab, MySQL Workbench, Supabase, CLI, Netlify, Vercel, Render

**Core CS Concepts:** Object-Oriented Programming (OOP), Data Structures & Algorithms, Operating Systems, Computer Organization & Architecture, Database Management Systems (DBMS), Networking Basics

**Design & Visualization:** Figma, Canva, Draw.io

## Technical Experience

---

### Portfolio Website – Frontend Developer

May 2025 | React.js, Tailwind CSS, Netlify

- Designed and developed a personal portfolio website with a dark/light theme toggle and responsive layout.
- Showcased technical projects, skills, and blog content using modular components and client-side routing.
- Deployed the site using Netlify with continuous integration via GitHub.

### Frontend Contributions to Team Projects – UI Developer

2024 – 2025 | React.js, Tailwind CSS, Figma, Canva

- Collaborated on team-based projects, focusing on translating Figma designs into clean, responsive UI components.
- Utilized Framer plugins and Canva for rapid prototyping and wireframing user flows.

### DSA & Competitive Programming – LeetCode Contributor

2024 – Present | Java, C

- Solved 200+ problems across categories including dynamic programming, trees, graphs, and recursion.
- Regularly participate in LeetCode contests and actively work on optimizing time and space complexity.

## Projects

---

**VerQ** - A college placement automation platform that bridges the gap between students and companies. Built using the MERN stack (with Supabase instead of MongoDB), it connects students, recruiters, and the placement cell. It also features an AI-powered resume scorer (ATS Checker) to help students optimize their CVs.

**Bitlink** - A web app that shortens URLs and generates QR codes with a clean UI and real-time link tracking. Ideal for sharing and managing links efficiently. Built using React and Supabase with a focus on simplicity and utility.

**Movie Web App** - A Movie Searching application which basically was a beginner application to understand the fundamentals of react which implemented the various hooks and usage of API to find the movie you want to watch and a real time search feature along with basic responsiveness.

**Order Management System** - A desktop-based Java application for managing orders between users and vendors. Developed using Java Swing for the frontend and JDBC for database operations, it links customers, orders, and vendors for streamlined processing and efficient order tracking.

## Education

---

### B.Tech in Computer Science & Engineering |

Symbiosis Institute of Technology, Pune

### Higher Secondary Education |

Excellencia Junior College, Secunderabad

### Secondary Education |

Pallavi Model School, Secunderabad

**CGPA: 7.16**

(2023 - 2027)

**Percentage: 85.5%**

(2022 - 2023)

**Percentage: 85.5%**

(2020 - 2021)

## Certifications

---

**Python for Beginners** – Scaler

**Frontend Development (HTML, CSS, JS)** – Alison

**Problem Solving (Intermediate), JavaScript (Basic), SQL (Basic)** – HackerRank

**Frontend Development with React** – HackerRank

**Node.js (Basic)** – HackerRank

**GitHub Introduction** – Microsoft

## Role of Responsibility

---

**Google Developer Students Club - Social Media Co-Lead** (August 2024 - April 2025)

**Google Developer Students Club - Competitive Programming Co-Lead** (April 2025 - present)

**SymbiTech (SIT Pune's flagship technical fest.) - Social Media Head** (January 2025)

## Achievements & Extracurricular Activity

---

**Managed a national-level hackathon** hosted by **Google Developers Group on Campus at SIT Pune**, overseeing the media and documentation execution.

**Organized a Developer Student Club event for Symbitech (Jan 2025)**, SIT Pune's flagship technical fest.
